(abridged version) (Updates always at the end of the article - Bu yayından sonra güncelleme alanında Türk versiyonu!)

For a long time I thought about where and how to start with this article. Due to the flood of data (approx. 2 TB) after approx. 12 months of research, it was difficult to set up a so-called storyboard that correctly documents the chronological fraud that the operators of GetMyAds have been promoting for over 12 months.

Initially, the focus on this fraud was only with GMA. But the more I researched, the more there were countless connections that are all involved in this fraud. These cross-connections, however, also did the same, in that they also cheat after almost the same mesh. We are not talking here about a loss sum of a few euros, but we are talking about millions of euros / dollars that were / are earned worldwide and that seep away from taxes somewhere in the pockets of the upper structures of GMA.

But when can we actually speak of a fraud?

We can now speak of fraud when an operator suggests to a customer under false pretenses that he can use services, but that these are only supposed to cover up another action. Furthermore, the operator instructs his customers to conduct their own criminal acts if the latter deliberately withholds

facts in order to gain a monetary advantage. The fact of the existence of a supposedly real person to whom it is stated that this person runs the business. If this person is not real, at least in the information provided by GMA, this is another point of fraud. The withholding of circumstances leading to forced anesthesia, which should be of great importance at least for European affiliates, also leads to fraud, aiding and abetting fraud and tax evasion.

Where would taxes have to be paid from GMA income?

Now GMA claims to have its fiscal seat in Mahe / Seychelles. Though only a mailbox company, this may be partly true. But if we take a look at the documents, the picture is completely different. The company was registered via Aczentio / Thailand in Hong Kong by a person who claims to live in America. However, GMA was not registered through the fiscal headquarters, but rather through an independence, so that the supposed headquarters of the company is eliminated. Nothing of a head office is documented in the documents. Basically, two independent companies have formed. However, Americans are fiscally liable to pay taxes to the USA in every place in the world if they are resident in the USA. Incidentally, this also applies to investors and green card holders. So taxes have to be paid in the USA. Now Nozaki and Schütt state that you live in the USA and in Berlin on the one hand. Due to a double taxation agreement, it would have to be conclusively clarified where Nozaki and Schütt spend most of the year. Therefore, the complete report is sent to the tax authorities in the USA and Germany. In the matter of Schranz, the fiscal seat is obvious, it has to pay its taxes in Switzerland. Here, too, the report is sent to the Swiss tax authorities at the same time. In the matter of Schranz, the fiscal seat is obvious, it has to pay its taxes in Switzerland. Here, too, the report is sent to the Swiss tax authorities at the same time. In the matter of Schranz, the fiscal seat is obvious, it has to pay its taxes in Switzerland. Here, too, the report is sent to the Swiss tax authorities at the same time.

In addition, over a third of European affiliates have not registered a business and thus willfully evade taxes. Also can be accepted. that some affiliate's investment income comes from other fraudulent activities That would then have to be clarified by the investigating authorities.

But let's start from the beginning. On September 13, 2013, the Cheuram Counselling Group Limited, chaired by Henning Schwartzkopf, a lawyer from Hamburg, received the order from Michael Olaf Schütt to found the Aczentio Counseling Group Limited in Hong Kong, which he did. Michael Olaf Schütt was entered as the individual director. At that time, GMA was out of the question, but Schütt registered these companies at that time in order to be able to carry out and conceal his own criminal offenses in connection with the charge of money laundering.

指明編號 2/2011 (2011 年 2 月)

0149

We remember and go back to the year 2010, when on February 27th before the district court of Fort Meyer, Mr. Schütt was sentenced to several years imprisonment for money laundering of over US \$ 70 million and fraud. Mr. Schütt had laundered money for several online casinos and founded hundreds of companies and opened numerous bank accounts. The entire property was confiscated.

You can find the 46-page complaint in this case at: <http://de.slideshare.net/firefollowme/criminal-court-complaint-michael-olaf-schuett-gambling-bluetool-wirecard>
(<http://de.slideshare.net/firefollowme/criminal-court-complaint-michael-olaf-schuett-gambling-bluetool-wirecard>)

On October 19, 2013, however, the newly founded Aczentio Consulting Group Limited was finally transferred by Mr. Schwartzkopf to Mr. Schütt (see following pictures), for this purpose Mr. Schwartzkopf left the Limited. To what extent Mr. Schwartzkopf knew about this must be clarified by the investigating authorities. As far as I know, however, this is a purely contractual relationship that focused exclusively on the initial registration of the Aczentio company and was documented on the basis of the handover to Schütt a few weeks after registration.

指明編號 2/2004 (修訂) (2004 年 2 月)
Specification No. 2/2004 (Revision) (Feb. 2004)

0017

On September 27, 2013, however, before Henning Schwartzkopf had handed over the newly founded Aczento Consulting Group Limited to Schütt, Michael Schütt founded another company as a registered director in Hong Kong, namely Waterfall Consulting Limited. As you can easily see, Michael Olaf Schütt was registered as the founder. The Aczento Consulting Group Limited was registered as the Cooperate Secretary, also owned by Michael Schütt. Michael Schütt gives the following as an email address: michael@us24-group.com - Michael Schütt is the owner of the domain us24-group [dot] com. The company US 24 Group LLC. meanwhile it is no longer officially managed by Michael Schütt but is still quite active on the market. But this is here in the background. More about this imprint later.

Michael Schütt is again entered as the first director / individual director. Mind you the Waterfall Consulting Limited has the status active.

Nachdem also Michael Schütt in Amerika nicht mehr so recht willkommen war, agiert dieser nun mit seinen Firmengründungen überwiegend über Hong Kong und Thailand. Aber nein hier ist die Geschichte ja noch nicht zu Ende. Denn am 12.10.2015 also fast zwei Jahre später, wird verschleiert über die Aczento von einem Philip Anatol Anhalt aus Sontra/Deutschland die Firma Smith & Friday Consulting Limited gegründet und hier beginnt der anfängliche Weg von GetMyAds. Sekretär der Firma hier ist die zuvor von Michael Schütt gegründete Waterfall Consulting Limited. Als Mailadresse wird hier angegeben: anhalt@aczento.com – Die angegebene Adresse ist exakt jene Adresse mit Raum 1120, die GMA heute als Domizil auf seiner Webseite angibt. Waterfall Consulting indes residiert in Raum 908 und die neu gegründete Firma Smith & Friday in Raum 901 und 1102. Hierzu aber später noch mehr.

姓名 Name : Anhalt, Philip Anatol

日期 Date : 12 / 10 / 2015

創辦成員 Founder Member

日 DD / 月 MM / 年 YYYY

On October 22nd, 2015, Philip Anatol Anhalt leaves Schmith & Friday and is replaced by Ms. Prani Holgate and gives the following address in the change of registration: The Bloom -44/166, Sukhumvit / SOI 71, 10110 Bangkok Thailand. Exactly the address at which the Aczento company operates a branch in Thailand (document is available). Signature took place independently.

On March 30, 2016, Prani Holgate left the company and a certain Kai Nozaki took over as director. Nozaki of Japanese descent lives in Berlin on the one hand and in Florida on the other, where he says he runs an advertising company. Nozaki appears repeatedly at several companies at Aczento in Florida, either as a secretary or directly as a director (all documents are available). Nozaki gives the following as the German postal address: Libauerstr. 23, 10245 Berlin - Regarding the Nozaki Kai case, it should be noted that with utopian promises another project by Kai Nozaki - here getdigiads [dot] de under the guidance of Nils Wunsch, makes the Internet unsafe. There is still extensive research going on here.

So now let's take a little leap and dedicate ourselves to Kei Nozaki, who is now the director of Smith & Friday and has given an address in Berlin. At this address in Berlin, however, Michael Olaf Schütt founded the company Sunrise Consulting UG on September 26, 2013. This company placed IT specialists. The company was dissolved on April 22nd, 2016 and by public announcement on May 11th, 2016. The company's liquidator, however, was Kei Nozaki, a coincidence? Not at all but had a system.

Firma gelöscht Unserer Kenntnis zufolge wurde diese Firma am 10/05/2016 aus dem Handelsregister entfernt.

To declare the processes here as a promotional tool for an advertising agency is far-fetched and utopian. Instead, there are indications that Kai Nozaki is not only acting as a front man for various companies, but is also directly involved in GMA. Kai Nozaki runs his own Revshare program, which is to be seen as the forerunner of today's GMA and was available on the website [wir-tuns-fuer-geld \[dot\] de](http://wir-tuns-fuer-geld[dot]de). After the first publication, the GMA would be disenchanted, the website was deleted but the content of the website was left indexed so that everyone can access it. There you can find traces that suddenly lead to a Nils request, among other things, I was able to get hold of a payment and an invoice issued at Nils request and secure it.

Nils Wunsch, however, is already known in the scene, see also the following article on <https://cafe4eck.wordpress.com/2014/05/04/neue-abzocke-von-niels-wunsch-ehemals-niels-magersuppe-aus-clausthal-with-socialnomic/> / (<https://cafe4eck.wordpress.com/2014/05/04/neue-abzocke-von-niels-wunsch-ehemals-niels-magersuppe-aus-clausthal-mit-socialnomic/>).

The website operated by Nils Wunsch with the name [getdigiads \[dot\] com](http://getdigiads[dot]com) is again issued to the company US Financial Management Group Inc. and registered on August 16, 2016 by Kai Nozaki. Director of the US Financial Management Group Inc. is again Kai Nozaki and, in a closer relationship, Michael Schütt. The website at that time with the RevShare program of Kai Nozaki, on the other hand, was with the imprint on the same, also [wir-tuns-for-money \[dot\] de](http://wir-tuns-for-money[dot]de) with the same US company address.

In the meantime, the tracks were quickly erased and Nil's request was put in its place. The evidence of further fraud with the new website is currently still being examined but cannot be dismissed continuously. Interesting and at the same time utopian are of course 9% cashback.

Interestingly, let's take a look at the old imprint of the old Rev-Share program:

Powered by Kei Nozaki

So consequently the address of the US Financial Management Group Inc., which in turn is also the domain owner of getdigiads [dot] de. However, the following person is specified there:

Domainabfrage-Ergebnis

Domaindaten

<u>Domain</u>	getdigiads.de
<u>Letzte Aktualisierung</u>	16.08.2016

Domaininhaber

Der Domaininhaber ist der Vertragspartner der DENIC und damit der an der Domain materiell Berechtigte.

<u>Domaininhaber</u>	US Financial Management Group Inc
<u>Adresse</u>	382 NE 191st S
<u>PLZ</u>	79989
<u>Ort</u>	Miami
<u>Land</u>	US

Officially, a Thomas Glaeser is listed here as CEO and Kai Nozaki as secretary. However, as you can see from the FL-Sunbiz database, the company is inactive but is still often used for other domain registrations in order to hide many branches.

Bei Bekanntwerden von entsprechenden Rechtsverletzungen werden wir diese Inhalte umgehend entfernen.

Bereits seit 08/2016 eine Steuernummer und eine Umst-ID beantragt aber noch nicht im Impressum. Hier führe ich den Verdacht der Steuerhinterziehung an. Nun ist es so, das Nozaki und Schütt in der Vergangenheit dafür bekannt waren und sind, das diese ganze Webseite in deren Design übernommen, doppelte Firmen gegründet und falsche Identitäten in Strukturen eingesetzt haben. Da aber Nils Wunsch bereits einschlägig bekannt im Internet hier mit von der Partie zu sein scheint, führe ich diesen auch als direkten Akteur beziehungsweise mitlaufendes Bauernopfer bei GMA an.

Halten wir zu diesem Zeitpunkt einmal fest. Folgende Personen sind bei GMA direkt und nachweisbar involviert:

1. Michael Schütt
2. Martin Schranz
3. Kai Nozaki
4. Nils Wunsch

Kann also in der Folge von Recherchen es ein Zufall sein, das Schütt und Nozaki mit Firmen in Florida residieren und von dort zeitweise agieren? Wohl eher nicht sondern man agiert auch miteinander in verschiedenen Lagern.

Doch kommen wir zurück zu GMA. Akzentu deren Inhaber Michael Schütt und Kai Nozaki laut den Dokumenten sind, haben eine Zweigstelle Ihrer Firma in Thailand. Exakt dort wo auch eine gewisse Prani Holgate ihren geschäftlichen Sitz hat.

location - Aczentu Consulting Group - Firmengründung USA ...

Exakt diese Adresse wurde genutzt um eben GMA in Hong Kong anzumelden. Die Aczentu Group hatte bzw. hat auch eine deutsche Domain inne. Deren Inhaber ein Christoph Uhlenhuth war. Doch man beachte einmal die Domain – Aktualisierungen;

So a first-class domain pushed back and forth. As soon as he is released from prison, the shaking game starts all over again. After my first contribution to the disenchantment of GMA, the slight panic among the operators of GMA has broken out. After all, the director of the Aczentto Group was quickly replaced and his name is now Daniel Winterford Jr.

And again we briefly leave the GMA area and dedicate ourselves to a suspected fraud that is now pending with the public prosecutor.

Thomas Foot – Schütt will Pizzafabrik bauen

🕒 11. August 2014 📁 Allgemein, Betrug 🔖 betrug, betrüger, michael olaf schütt, pizza fabrik

Ist Herr Schütt nun doch so Verrückt, dass er eine Pizza Fabrik plant?

Dieser Frage konnten wir nicht ganz auf den Grund gehen. Jedoch steht eins fest, Herr Schütt gründete in Florida die International Food Investments llc mit der Nummer:

L13000166461. Diese Gesellschaft wiederum beteiligte sich in Italien an der „Thomas Food“, zur Erinnerung.. einer der Alias Namen von Herrn Schütt ist Thomas Schneider.

Die Florida LLC übertrug ein Kapital in Höhe von EUR 100 Mio. and die italienische Gesellschaft als Investment. Mit diesem Mitteln war es geplant eine der größten Pizza Fabriken in Deutschland zu bauen.

Nun ist es soweit.. die Staatsanwaltschaft ermittelt, die ersten Verhaftungen finden statt, wie die NWZ Berichtet.

http://www.nwzonline.de/wirtschaft/pizzafabrik-in-schortens-jetzt-ermittelt-die-polizei_a_16,0,3396942609.html

Hier noch einige weitere Links zur Presse:

So not only a registration in America but almost at the same time also in the UK. Was this about the US \$ 100 million that was entered as stock shares upon company registration? In America there is no actual asset to be proven for the volume of the share package and you can just lie in the blue say that a share package of 100 million is deposited in the company.

Yes, you might not believe it, but everything is somehow related to GMA to which we are now devoting ourselves again. At this point I would like to remind you of the GMA imprint.

And here now the official company registration in Hong Kong, at the address that can be found officially on the GetMyAds website:

And there it is again our Smith & Friday Consulting, which in turn was founded by Waterfall Consulting and thus by Michael Schütt with the person Philip Anatol, then replaced with Prani Holgate. Kai Nozaki is the secretary here and later, as you can see, the sole owner of GMA. One

would think so. Such a fraud and, as the following indication, the millionfold tax evasion in several countries, cannot be dealt with by one person alone. Here you need specialist fraudsters to build the whole construct and keep it alive.

The briefly disclosed address of TECHWOOD WORLD LTD. based in the Seychelles is still a dazzling address. But this was quickly removed from the website after my contribution to it was published.

Martin Schranz, on the other hand, who always claimed to know nothing, although as "support" he has to be privy to all processes in order to be able to fill out the support correctly, will soon have to answer the questions of the Swiss investigative authorities. Michael Schütt and Kai Nozaki will have to answer questions from German and American investigative authorities. All others in the countries in which they mainly operate.

The picture that Frank Hanson depicts has been analyzed and estimated to be around 15 years old. So the person in the picture, to whom you pretend that this is Frank Hanson, will look a little different today. Research in pretty much all known databases in the world did not reveal any evidence that person and name are linked or exist. Even GMA has not yet provided any counter-evidence. How should they come up with counter-evidence if the disclosure of identity would shake the whole construct. Frank Hanson actually only plays a guest role in this game.

Kai Nozaki and Michael Schütt with the top helper Martin Schranz, on the other hand, are the first-placed protagonists in this game.

The company foundations that are currently dormant or active and were carried out by Kai Nozaki in Florida and Hong Kong show all indications that many of these companies could be pure money laundering systems.

+/- 155 (** identities for this are currently being determined and no, the actual database is a bit larger) these are the protagonists who can be found officially on the internet and are still promoting GMA there. With an alleged membership of over 300,000, blatantly little. So where do the rest of the members advertise? In the unspecified 75/48 advertising networks the GMA officially states? But where do the advertising networks advertise and where can their sources be found? In the darknet? Or is there a big black hole in the internet in which everything unthinkable about the internet is slowly disappearing? Traces, however, lead to various classifieds portals in Nigeria, which in turn are suspected of being used by the Nigerian Connection for money laundering. There is still some research to be done here.

The fake news on Focus - N-TV - Sachsennachrichten - SZ and others, which the GMA Jünger and the operator suggests that the respective renowned magazines have written an article about GMA, have contributed to this fraud up to and including was almost infinitely bloated and as a result, new victims have found each other again and again and are still to be found. So those affiliates have to defend themselves from the statement that they have actively and massively contributed to the fraud.

The following page provides helpful information about the aczentto Group by Michael bulk and Kai Nozaki - >> <http://aczentto-betrug.com/?p=9> (<http://aczentto-betrug.com/?p=9>).

Did Kai Nozaki notice after the inglorious end of the startup - picabee - that you could only earn honest money with honest work and therefore changed fronts? - >>

<http://www.handelskraft.de/2009/05/der-fotodienst-picabee-vor-dem-aus/>
(<http://www.handelskraft.de/2009/05/der-fotodienst-picabee-vor-dem-aus/>).

There is still some additional research going on due to cross-connections, which I will publish here in due course.

In the end it should be said that many "valuable" comments will also be posted on this report or reports published on other sites that try to discredit my person in connection with Paul Pütz. Statements like, "He's lying as if in print" and others, will make the rounds again, especially with those subjects who are now worried about their collected money with a pathological blinker mentality. Lawyers will rub their hands again and want to muzzle the Burrenblog with their clients' pre-chewed food. But facts like those presented here can be verified by anyone in a comprehensible manner.

Conclusion: Those who still hold up the flag to GMA will soon feel a grip on their own wallet, especially those in my database who have demonstrably not registered a business. But a much higher value than money is the existence of freedom. Payment difficulties that currently prevail at GMA are therefore due to a lack of demand and will lead to the collapse of GMA in the short term. Either way, GMA is sliding towards its end and many a club will experience their own beginning of the end.

Update from October 28, 2017 / 8.48 p.m.

Martin Schranz has probably changed his private residence for security reasons, as an Austrian bird just chirped to me. As soon as this new address has been verified, I will provide it internally for all injured parties.

Update from 07/18/2017 / 2:34 p.m.

There are still those who were yesterday's advertisers who have held up GMA until now. Everything is fine with this candidate to achieve his goal. Even if we can speak of continued deliberate fraud here.

Update from 06/16/2017 / 03.55 a.m.

Everything goes as usual. With today's fate, Finma is now requesting the complete database for getMyAds so that it can be checked whether unauthorized financial services have been carried out here. I like to do it, it only takes a few days, since data from 1998 to 2017 have to be transferred here

so that the whole thing gives a uniform picture. And the list of Swiss affiliates is also on top.

Update from May 27th, 2017 / 1:22 p.m.

Panic brings out many a blooming style and creates a stupid energy field. A Mark R. alias Thomas Winkler has now claimed on his fake Facebook page in Turkish and English that Paul Pütz is actually behind GMA and TNA and also posted Paul Pütz's personal data ... Wow, how can you just ignore and twist the facts. Personal rights and their attack on them without context are particularly popular in courts in Germany.

But no fear. after all, yesterday I finished a 350-page documentary on GMA and all the Hintermenneken. Is being proofread and then sent. No, don't be afraid not to the film industry, rather to the investigative authorities.

Update from 05/13/2017 / 1:42 p.m.

Well, in the past, Martin Schranz always liked to pull out his website, the Hurrenblog, in relation to my revelations, in order to draw doubters into his rip-off orbit. He was also happy to refer to us bloggers as scribes and welfare recipients, whom he was happy to take to court. Strangely enough, he has grown so fond of the Burrenblog that he has legally left me alone so far. It's a shame, after all, I still "owe" him something. But maybe he can get through there. I recommend a law firm from Hamburg, they will definitely be able to fix the problem.

But there are actually clear connections between the prevailing legal processes and the latest GMA newsletter publications. Because it was no coincidence that the announcement that the Hall-Of-Fame is no longer officially visible. A certain amount of email traffic from the North German Gate to the World or legal requests to delete entries in the Hall Of Fame immediately prompted Martin Schranz to do so. After all, lawyers from this zone sometimes like to show their third pearly whites.

And I will come to the next point in a moment. Well where are most of the corpses? Right, in a figurative sense always in a cellar. And that's why it has been relatively quiet here on Burrenblog in the last few days. That was due to the fact that a team of twenty had been looking for corpses in the basement of a law firm for almost 14 days. And in Martin Schranz's cellar, too, whole trenches are opening up and corpses are bubbling up. Here we have already reached the year 2000.

Archiving entire websites on which the GetMyAds fraud program is still being advertised was and still is very time-consuming. After all, those who are still carrying in some form (press release - Pinterest - Twitter - Facebook - Google+ - Instagram - fake, now identified, websites without imprint - double account holder of GetMyAds - websites from abroad be it Thailand, Turkey, USA, England, Spain, France , Belgium, Holland etc.) actively contribute to further victims losing their money.

And because that's the case, in 14 days a bot will revisit all sources on which GetMyAds was previously registered and see whether they are still advertised. And where there is still advertising, criminal charges are then also filed against those who caused comments, contributions, press releases, websites, etc.

And in the meantime I'm going to work to fill the second part of GetMyAds with facts.

Update from May 7th, 2017 / 12:22 am

As soon as you think you are at the end of the research and analysis on GetMyAds, new, unimagined information opens up. Indirect cross-connections to GD-Line (formerly GDI-Line) suggest something bad. And this sentence should already be a reality - GetMyAds, the king is dead, long live the king. As soon as the dream of big money at GetMyAds is over and Mr. Schranz has left the field, the sow is driven through the mountains and she experiences the first pig palingenesis. So look forward to the next post in a few days.

Update from April 21, 2017 / 1:36 p.m.

I have received many inquiries about the taxation of GetMyAds income in the last few days. So here's a little bit of information again.

The sale of advertising packages (tokens) is another service within the meaning of the Value Added Tax Act. This is taxable and subject to VAT in Germany (the affiliate's seat) within the framework of the B2B principle. GetMyAds therefore owes the German state the sales tax. According to the sales tax law, however, the affiliate must pay the sales tax for GetMyAds and have thus already been taken advantage of because the operator concealed his real place of business. At the same time, however, the affiliates generally have a pre-tax claim in the same amount. You can have GetMyAds credited the sales tax as input tax at the same time when you register, provided the affiliate has not been classified as a small business owner or has not been classified. According to German tax law, GetMyAds is obliged to create a proper invoice, which has not yet happened because the "invoices" stored in the dashboard contain a mailbox address that disguise the real operators or until my revelations, and thus these invoices become invalid. This means that there is no right to deduct input tax.

Income has thus flowed in and is therefore taxable in full when the affiliate has obtained access to it, i.e. when the credit was displayed in the dashboard and the affiliate can / could dispose of it in the form of a transfer via the various payment providers. If GetMyAds does not pay, there is a bad debt loss. This means that the tax must first be paid and this can then be reclaimed again after the end of the financial year if the claim is uncollectible and has been recorded in the accounting.

I strongly advise you to seek advice from a tax advisor. Due to the complexity and the time required to familiarize yourself with this situation, higher fees may apply. You should also determine this beforehand with your tax advisor so that you don't get out of hand.

As a tax base, I have chosen the Seychelles as the starting point, as this is also the starting point for GetMyAds. There is no double taxation treaty. Please note this. Due to the legal opacity in relation to GetMyAds, I have sent an editorial to the German Ministry of Finance with the request for a clear statement on the taxation of such income, taking into account all criminal and civil law facts (concealment of the actual place of operation and operator, interest on pool credit 50/50, Taxation of tokens bought from pool credit, taxation of interest-bearing income, bad debts due to the operator's insolvency and their type of taxation.)

As soon as I have an answer, I will publish it in a separate post here on this blog.

This update does not constitute legal or tax advice. You are therefore asked to seek professional help from a lawyer or tax advisor to clarify the actual situation.

Update from 04/24/2017 / 5:08 p.m.

And again I and / or Mr. Pütz were exposed. Here exclusive insights into the operator of Cafe4eck. Yes, but it is also a horror with these supposed Burren blog operators who, according to the latest findings that have been published on Youtube, are probably also responsible for the blog and its offshoots Cafe4eck. So it won't take long and I'll probably have to turn my head for GoMoPa, WikiLeaks, BehindMLM and all the other blogs and "negative writers". It is not always easy to update this global network on a daily basis with just two hands, while doing research and answering inquiries.

But maybe it is now time to start offering bounties to people who can provide useful advice on various programs and video providers. I'll have that checked legally. At least a good approach, because if the price is right, many people become the Judas of their own bread maker.

Update from April 20, 2017 / 1:32 p.m.

When the need is greatest, you sometimes resort to the most unbelievable methods, at least that's what the people behind GetMyAds think. Massive referrer spam makes me happy today on Burrenblog, which is delivered directly via a disguised server from GetMyAds. On the one hand, it should of course generate new backlinks and, on the other hand, the Burrenblog should be seriously disturbed if it weren't for the Burrenblog itself to harm but directly to the investigative authorities. On the other hand, clicks and views are produced here that never took place and thus represent a fraudulent offense against the affiliate.

traffic.getmyads.com	139
traffic.getmyads.com/campaigns/click?lang=EN	92
traffic.getmyads.com/campaigns/click?lang=DE	36
traffic.getmyads.com/campaigns/click?lang=TR	8
traffic.getmyads.com/campaigns/banner?lang=DE	2
traffic.getmyads.com/campaigns/banner?lang=EN	1

Basierend auf diesen Vorfällen und Vorfällen anderer Affiliate die mir vorliegen, liegt das Indiz nahe, das Views und Klicks getmyads niemals verlassen haben und man, weil ja als Werbetoken getarnt, also niemals geworben hat. Dem Affiliate werden zwar angezeigt, das Klicks und Views stattgefunden haben, dieser aber in Wirklichkeit gar nicht nachvollziehen kann von wo die Referrer kommen und ob diese echt sind.

Wie könnte also ein Referrer von einer Campagnenseite (beworbenen Seite – Banner) ausgehend auf den Burrenblog gelangen, wenn ein Verweis zum Burrenblog gänzlich fehlt? Dieser muss aber im Normalfall vorhanden sein um ein Referrereintrag in meinen Logs zu erzeugen. Ist dies nicht der Fall wird so kann man davon ausgehen das hinter der Url traffic(dot)getmyads(dot) sich in Wirklichkeit ein Spambot versteckt, der zum einen die Werbung für GetMyads ausliefert und zum anderen Backlinks erzeugt. Somit wäre auch der Alexa-Ranking von Getmyads erklärbar, der indes über Spambots künstlich so erzeugt wurde, um so den ganzen Betrug eine größeren Hyp zu verleihen.

Update vom 11.04.2017 / 22.32 Uhr

Was passiert wenn Martin Schranz – Ronnie Montano und Rodniel Baillo etwas aushecken, erkennt man an die Erschaffung der falschen Frank Hanson Identität. Die ethnische Zugehörigkeit ist jetzt zumindest geklärt. Jetzt geht es bei diesem Intermezzo in die zweite Runde, wo es darum geht, die vorliegenden Unterschriftenproben von „Frank Hanson“, tatsächlich lebenden Personen zuzuordnen. Und da wären wir dann wieder bei dem letzten Newsletter in dem mitgeteilt wurde, das der Ceo

„Frank Hanson“ abgelöst wird. Einer der vielen Kreise schließt sich. Bei GMA ahnte man wohl schon etwas.....und bevor ich mir von denen jetzt die Recherchewurst vom Butterbrot klauen lasse, gibt es ganz schnell und bald die neusten News zu GetMyAds.

Update vom 11.04.2017 / 15.22 Uhr

Wie dumm sind Menschen eigentlich. Nun nach neusten Informationen sind schweizer in Thurgauer Bereich besonders anfällig für mangelnde Intelligenz. Anders ließe sich nicht erklären wieso exakt genau aus einem bestimmten Bereich, ach nennen wir es mal Arbon/Frauenfeld, mit gefakten Profilen ala`Burrenblog signiert, man Kommentare auf verschiedenen Foren und Webseiten postet, die diskreditierende falsche Informationen enthalten um mir ans Bein zu pinkeln? Liegt wohl daran, das bis zu einem gewissen Grad ein Hauptschulabschluss keine nennenswerte Spuren irgendeiner Intelligenz hinterlässt. Das zudem ein Firmenrechner genutzt wurde, zeigt deutlich, wie schwerwiegend dieser Mangel an Intelligenz zu sein scheint. Das ein seriöses Unternehmen dessen Anschluss genutzt wurde, nun mit in den Strudel staatsanwaltlicher Ermittlungen gezogen wird ist nicht nur perfide sondern zeigt uns auch, mit welchen Mitteln man versucht den Burrenblog in allen Richtungen zu diskreditieren.

Und auch sonst scheint bei GMA derzeit die pure Panik vorzuherrschen. Drohende und beleidigende Mitteilungen an mich, die durch haltlose Forderungen auch noch gestützt werden, zeigen den schulischen Grad vieler GMA – Mitglieder. Zahlreiche Webseiten wurden gelöscht um ja alle Spuren zu verwischen. Dabei bringt das doch gar nichts mehr. Der überwiegende Teil aller Spuren wurde doch schon längst gesichert.

Und es geht weiter mit Recherchen. Im Visier Pornowebsites aus Hamburg und dazu gestohlene Identitäten, all das von deutschen Boden ausgehend ist teilweise an krimineller Energie nicht mehr zu überbieten.

Update vom 29.03.2017 / 16.05 Uhr

Further research has shown that Ron Montano (US) alias Ronnie MONTANO, aka RONNY MONTANO, aka Ronald MONTANO, is more deeply involved in the structures of GetMyAds than initially assumed. A conspiratorial meeting between Martin Schranz and Ron Montano a few months before the prelaunch phase of GMA brings further facts to light, which I will disclose in the second part of my revelations. Ron Montano, together with Simon Stepsys (UK), has now been added to the list of those with significant responsibility. Corresponding information has now been passed on to the American authorities. The fact that both protagonists continue to clap vigorously for GMA despite the knowledge that GMA is in the final phase of the collapse, makes the whole thing even more perfidious from a criminal point of view.

Update from 03/29/2017 / 3:58 p.m.

A Turkish colleague has now done the work and translated my revelations about GMA into Turkish, so that the Turkish affiliates can also receive this information and act. Turkish version of my revelations here: <http://yatirimkapisi.com/getmyads/getmyads-gercekleri-soyleme-vakti/> (<http://yatirimkapisi.com/getmyads/getmyads-gercekleri-soyleme-vakti/>).

Turkish version - Turkish version!

Bir Türk meslektaşım şimdi bir kez işi yapmış ve GMA benim âyetlerini, Türkçe tercume ve bağlı bu bulgileri ve işlem yapmasını edebilirsiniz.

Benim âyetlerini Türk versiyonu için tam buraya: <http://yatirimkapisi.com/getmyads/getmyads-gercekleri-soyleme-vakti/> (<http://yatirimkapisi.com/getmyads/getmyads-gercekleri-soyleme-vakti/>).

Updates from 03/23/2017 / 4:44 p.m.

What's new on the sinking ship GMA. Now that the ship has rammed an iceberg, Martina Zaremba probably wants to have her non-participation in GMA confirmed in court. However, the initiation of a search for Kay Zaremba from the Koblenz Public Prosecutor's Office has still not been successful, so I helped out with some information. Kay Zaremba, however, urgently needs money. And since nothing is too dirty for him, he continues to advertise the "Swissmethod" scam project to guide the unsuspecting into this scam. He wants to sell his GMA account for 35 K, if he has one in his name at all.

Simon Stepsys and his rip-off team are constantly beating the drum to lure more unsuspecting people into the GMA trap, if it weren't for that more on this later in the next post.

The voices of those who previously held up the flag for GMA, although they already knew through Burrenblog that this ship is illegal and will go under, are now rising in the wide valley of those who complain and fear for their investments. And so said the Burrenblog, do not be afraid, because it could get worse and lo and behold it will get worse, because those who now advertise GMA vigorously on Twitter and Co., act with provable intent. It doesn't matter whether Turks, Swiss, Germans, Austrians, Indians or Americans are still culling, many of them have already been targeted by the investigative authorities. Surprise - Guys!

Yes, what else is there ... oh yes soon there will be another larger contribution to GMA, because the story is not over yet.

Update from 03/14/2017 / 9:38 p.m.

Martina Zaremba shows us a very interesting development, who is named in the list of those who have been immortalized here with their sales. Then, through your lawyers SuS from Hamburg, you sent a warning to Mr Pütz (I have a copy of the document) that you will take action against Mr Pütz. How naive must a person be to believe that there are no documents to prove "something". Just because they haven't been published here yet? No, it cannot be, because if I have not necessarily been skimpy with documents as a whole, this does not mean that I will use all my powder in the first part of my remarks. I have therefore forwarded usable material to Mr. Pütz with the request,

So do the lawyers in question want to systematically drive Mr. Pütz into financial ruin in order to silence the Burrenblog with my person because the lawyers can presumably be able to prove that I am Mr. Pütz and Mr. Pütz me? Maybe it's time to start a chain reaction before I'm even finished with the second part of GMA. However, many will not like the domain effect, but can then certainly turn to the law firm SuS and obtain the necessary legal assistance. As far as I know, there are also good defense lawyers at work there (last sentence does not contain any advertising or recommendation for the firm in question).

Update from 03/12/2017 / 5:52 p.m.

Due to new information available to me, the research on Tobias Stanka and Stefan Hörmann has been decoupled from the GMA research. Colleagues in Munich will now take over these directly and later add them back to the GMA research.

Update from 03/11/2017 / 3:09 p.m.

The American Securities and Exchange Commission is now investigating under the reference number: TCR1489222601702 against GetMyAds on suspicion of a Ponzi scheme. All company registration documents, payment providers used, list of American affiliates, and payment receipts are available to the SEC.

Update from 03/10/2017 / 04:37 a.m.

So the next slap in the face for the operators of GMA and those affiliates with no advice, who are victimized with alleged newspaper articles from renowned online magazines. Finding the Sächsische Zeitung at sz-online.de took a closer look at my research and, after carefully examining it, threw out the GMA article (deleted - distanced).

Quote:

"..... with regard to getmyads, a little more profoundly dedicated to this topic, which was sometimes almost amusing, but ostensibly exposed a very nebulous business model"

I am in contact with the other editorial offices because the question arises as to whether the reporting is neutral or whether the articles tend to lack true objectivity and the operators of the renowned magazines enrich themselves due to the spelling of the nebulous business model and thus Aid to the facts mentioned in the article. Since some of the articles are not labeled as advertising, although they would have to be labeled as advertising if it were paid advertising, there is no question of liability.

In the next few days, my contribution will also be converted into a press release and then sent to selected well-known TV formats and magazines.

Update from 03/05/2017 / 04:38 a.m.

So the decoupled research on Marco Bucheister / Dortmund and Lars Christian Lerchenberger alias Philip Lerchenberger / Meran - Duisburg are almost complete. I'm still waiting for two documents and then the whole thing goes to the respective public prosecutor's offices and the respective tax authorities in Germany and Italy.

Update from March 5th, 2017 / 8:56 p.m.

So, about 40,000 files are lurking at GetMyAds. But are these file parts really file parts or do they still serve something? When examining around 500 parts of the card, it turned out that these leads are completely inactive, so don't buy tokens, etc., but are still good for something for GetMyAds. These rotten eggs serve as sellable leads. Remember, for one token (US \$ 50.00) you can buy two leads. Say a lot of the leads bought are basically rotten eggs. So a profitable rotten egg business. Let's extrapolate, 40,000 bad eggs: 2 leads per token = US \$ 25 for one lead = US \$ 1 million for 40,000 card members. So you have not only bought two parts of the card, but you also have a loss of US \$ 50.

Now the operators could argue that they cannot know whether a lead will be active or not. Well, if you do not become active within 4 weeks with a short-lived system like GetMyAds, you will not be active at all and the operators can determine that. So you knowingly convey leads who are dead. With the leads sold, the data is also passed on to an unknown person (buyer). A really interesting aspect with regard to the "data protection" of getMyAds.

Many German-language affiliates at GetMyAds have made it their business to run GetMyAds under the guise of illegality. On platforms such as Youtube, Twitter, Google+ and Facebook, the bars are culled. These "affiliates" with downline and sometimes without downline list false imprints on various websites, are not reported anywhere for tax or commercial purposes and have their sales and profits paid out via payment providers to which the German-speaking tax authorities have little access. We have now summarized these nice affiliates in a nice list together with all identified identity data and will now forward them to the German-speaking investigative authorities. The offense of fraud and aiding and abetting fraud is hereby fulfilled. Especially as a further indication that this is a criminal organization. I warned for a long time and it was also long enough time to withdraw quickly. Incidentally, this list will be published as soon as the downline has recourse claims.

Update from 03/03/2017 / 3:38 p.m.

The Burrenblog cannot be reached again because of DDOS attacks. Meanwhile I got some messages about Kay Zaremba alias Daniel Jachter. Accordingly, this must have cost hundreds of customers their savings. And also that these attacks occur again after an update to GMA and Kay Zaremba should not be a coincidence. I'm just saying, I have a lot of patience. Fortunately, there are other blogs where my updates and posts can be read unhindered.

Comments can also be posted here - >> <https://arthurvanburren.blogspot.de/>
(<https://arthurvanburren.blogspot.de/>)

or on Cafe4Eck.

Update from 03/02/2017 / 9:12 p.m.

Are the first big earners leaving the sinking ship at GetMyAds? Well at least one could give that impression if one reads this put option from Kay Zaremba.

Kay Zarembo = binary strategy [dot] de. I have to admit my calculation is far below what Kay Zarembo states here in this sale offer. I have to correct my information to the authorities again. I just wonder now, who should be so stupid and accept this offer?

Update from 02/23/2017 / 3:51 p.m.

A little insight into the sales and earnings of individual GetMyAds members (**representation taken from 1250 Daydoor lists**).

1. Marc Reuter (web expert) is the undisputed number 1 with approx. 19 million US \$ of tokens sold (approx. 370 thousand) tokens in his downline. Estimated income to date approx. US \$ 3.5 million
2. Ernst Cramer (ECNr1) in 4th place with approx. 7 million US \$ in sold (approx. 145,000) tokens in the downline. Estimated earnings to date around US \$ 900,000
3. Erich Strasser (Webflashers) with approx. 1.2 million US \$ (approx. 25,000) tokens sold in the downline. Estimated income to date around US \$ 144,000
4. Sören Haag (flowfish) * with approx. US \$ 1.3 million sold (approx. 24 thousand) tokens in the downline. Estimated earnings to date around US \$ 135,000
5. Martilova X (XXXXX) * in connection with Kay Zarembo with approx. 1.1 million sold (approx. 23 thousand) tokens in the downline. Estimated income to date approx. US \$ 132,000 (due to ongoing censorship by the German authorities, the name was temporarily changed at the request of Mr. Pütz - criminal claims by third parties were made as of today - ff.).
6. Sabine Ernst (marketing) * with approx. US \$ 800,000 sold (approx. 16.5 thousand) tokens in the downline. Estimated earnings to date approx. 100,000 US \$
7. Martin Rühle (viajero) with approx. US \$ 700,000 (approx. 14,000) tokens sold in the downline. Estimated earnings to date around US \$ 85,000
8. Jürgen Wermke (coach4web) with approx. 545,000 US \$ (10.9 thousand) tokens sold in the downline. Estimated earnings to date approx. 66,000 US \$
9. Theres Schmid (schmidtheres) with approx. 520,000 US \$ (10.4 thousand) tokens sold in the downline. Estimated earnings to date approx. US \$ 63,000
10. Heiko Reese (mcs) with approx. 450,000 US \$ (9,000) tokens sold in the downline. Estimated earnings to date around US \$ 54,000
11. Dennis Koray (mysrorymarketing) with approx. 410,000 US \$ (8.2 thousand) tokens sold in the downline. Estimated earnings to date approx. US \$ 49,200
12. Stefan Hörmann (steve25m) * with approx. US \$ 390,000 (7.8 thousand) tokens sold in the downline. Estimated earnings to date approximately US \$ 46,800
13. Sascha Hönisch (Volter15) * with approx. US \$ 380,000 sold (7.6 thousand) tokens in the downline. Estimated earnings to date approximately US \$ 45,600
14. Alois Köhle (akjunior) * with approx. 345,000 US \$ (6.9 thousand) tokens sold in the downline. Estimated earnings to date approx. US \$ 42,000
15. Beatrice Hassa (Mulberry) * with approx. 335,000 US \$ (6.7 thousand) tokens sold in the downline. Estimated earnings to date approx. US \$ 41,000
16. Urs Rohner (Team_Pumpuy) with approx. 315,000 US \$ (6.3 thousand) tokens sold in the downline. Estimated earnings to date approx. US \$ 38,000
17. Thomas Loesch (wicked-tom) with approx. 310,000 US \$ (6.2 thousand) tokens sold in the downline. Estimated earnings to date approx. US \$ 37,500
18. Martin Egli (MartinEgli) with approximately US \$ 305,000 (6.1 thousand) tokens sold in the downline. Estimated earnings to date approximately US \$ 36,600
19. Beat Lenhard (Lenimaster1) * with approx. 295,000 US \$ (5.9 thousand) tokens sold in the downline. Estimated earnings to date approximately US \$ 35,400
20. Marco Buchheister (mabumadi) * with approx. 295,000 US \$ (5.9 thousand) tokens sold in the downline. Estimated earnings to date approximately US \$ 35,400

The total generated turnover of Getmyads is estimated on the basis of the available figures at approximately 330,000,000,000 US \$. The lists are currently still being evaluated. But that still takes some time because everything has to be calculated manually.

Accordingly, the usable clicks were around 1.4 billion clicks.

If you calculate it all up and down, the result is a bizzare picture and GMA can actually no longer pay out as a whole. The expenses far exceed the income, which would explain why currently the payouts can only take place every three weeks and why is only paid out so miserably. What is currently coming in will probably be distributed again directly.

Update from 02/23/2017 / 07.08 a.m.

So hot news just received from WordPress support. Accordingly, four out of eight independent DDOS attacks are currently still taking place. For this reason, WordPress has now also switched on the American investigative authorities and has translated this article into English and transmitted it to the investigative authorities. Due to the ongoing DDOS attacks, some small changes have been made to the Burrenblog that reduce an attack surface. The number of days has been reduced to a minimum. Post widget has been removed and the total number of posts on the homepage has been reduced to 10. Furthermore, the Burrenblog has now also been placed under special DDOS protection. The American investigative authorities are meanwhile directly on site at WordPress and are now analyzing the various attacks.

So have fun reading the Burrenblog until the next big wave.

Update from 02/23/2017 / 07:07 am

So, the next wave of naive inadequacies has swept over the Burrenblog. And no, I didn't sit around idly, but used the time to research. Martin Schranz, actually only responsible for the lower jobs in the GetMyAds company, in some cases insisted on lending a hand or even issuing orders to put the own critical folk of GMA Schäfchen in their place. Youtube accounts are hacked in order to destroy critical video contributions, GMA sheep are mourned by links because they expressed critical opinions and with the very harsh reviews in this small elitist circle you went there without further ado and then you have the accounts right away deleted.

Martin Schranz vor 2 Stunden

Dafür, dass Du in GMA absolut nix gemacht hast, hast Du eine ganz schön große Klappe hier... rein nix gemacht aber dick reden...

Antworten •

The Netzwerker vor 2 Stunden (bearbeitet)

NACHTRAG: - Danke martin das du meinen GETMYADS Account gelöscht hast.

Lieber Martin,

wie schön das sich hier ein Leader von GMA meldet. So liegt die Vermutung nahe, dass wohl ein Stückchen Wahrheit dahinter steckt, denn betroffene Hunde bellen.

GMA ist selbst Schuld und nun verhindern einzelne das Nutzer sich kritisch austauschen können und ZURECHT Ding hinterfragen. Hätte man vorher einfach mal ehrlich kommuniziert wären viele Nutzer gar nicht verärgert.

Es ist völlig egal wieviel Geld ich bei GMA investiert habe (Aktuell ca 350 Euro) bin ich deshalb weniger wert? Sind das also die Ansichten eines Millionärs der mehr oder weniger durch genau solche Nutzer, Millionär geworden ist?

Es gibt eben auch Gesetze an dich man sich halten muss und das gilt auch für GMA und MMC. Nachträgliche Gebühren erheben, ohne das eine neue AGB vorgelegt wird ist schlichtweg BETRUG bzw. erschleichen von Leistungen...

Ebenfalls lasse ich mir ungern den Mund verbieten, schon gar nicht von Leuten die ich nicht persönlich kenne. Da reagiere ich allergisch drauf und vor allem wenn man vorsätzlich Leuten Information enthält wie in der GMA FB Gruppe.

Gerade du solltest Wissen das keiner GMA etwas schlechtes will, weil wir alle davon profitieren wollen aber eure Kommunikationspolitik in eurer aktuellen Lebensphase ist euer tot, keine Ahnung warum ihr das nicht rafften wollt.

hatte mehr von dir erwartet!

Antworten • 1

Da wird dem schranzigen kriminellen Zyklus, egomanischer Unverfrorenheit auch noch zusätzlich ein Sahnehäubchen aufgesetzt, indem man kriminelle Handlungen mit kriminellen Sanktionen in den Olympus der MLM Branche hievt. Wenn nichts bisher sonderlich an dem schon sowieso negativen Image* der Branche gekratzt hat, so hat es ein Herr Martin Schranz vollends nun geschafft mit solchem verbalen und brachialen Nachhaken das verunsicherte Völkchen von GMA Schäfchen zu knechten. Kaum jemand in der Szene der sich traut Kritik offen unter seinem richtigen Namen abzugeben ohne Gefahr zu laufen, seine ganzen Investitionen bei Getmyads zu verlieren.

Der Krux hierbei ist, das tatsächlich niemand Angst haben muss, sein Geld zu verlieren. Denn das was eingezahlt wurde gehörte dem Investor da schon nicht mehr, und Einnahmen unterlagen keiner Garantie einer Auszahlung. Werbung kann und konnte man nur im inneren Kreis von GetMyAds, sprich ohne Investition keine Werbung, machen. Das dabei die Werbeplätze wie der letzte Dreck für ein zum Tode verurteiltes Schwein zu handeln waren, da billige Werbeplätze in Blind-Networks eingekauft wurden und werden, zeigt uns, das Vordergründig die ganzen Investitionen als vermitteltes Kapital zu betrachten sind. Von außen konnte niemand ohne Investition Werbung schalten. Und so ist GetMyads als Ponzi, Scam oder Schneeballsystem zu betrachten, das in seinen perfiden Ausführungen den ganzen Betrug perfektioniert hat.

Wer jetzt von den GetMyAds Schäfchen noch nicht aufgewacht ist, wird spätestens dann seine Augen öffnen, wenn ein deutscher, österreichischer oder schweizer Schäferhund vor seiner Haustüre steht und seinen Obulus einfordert.

Aber für alle GMA Schäfchen gibt es einen Lichtblick mit negativen folgen am Horizont. Nämlich dann, wenn es ans eingemachte geht. Na haben Sie Member in Ihrer Downline, ja, na das dürfte Ihr finanzieller Ruin bedeuten. Wir sprechen hier von einer suggestiven übertragbaren Haftung, die dann objektiv wird, wenn das Massaker, das ans Messer liefern, beginnt. Die vermeintlichen Gewinner werden hier die Downlines sein, die keine Downlines haben. Jene, die Ihre Upline dann vor jedes deutsche, österreichische oder schweizer Gericht zerren kann, um Regress zu fordern.

Ich sehe schon, wie die Uplines dann minuziös dem Gericht erklären müssen, wo z.B. die Werbung im welchen Ausmaß terminiert platziert wurde und ob der Werbende dafür einen nachweis erhalten hat. Wenn sie erklären müssen in welcher Reinform über GetMyAds beraten wurde und vieles mehr.

(* Schreibweise ist so gewollt)

Es wird nun also langsam Zeit, die zweite Welle von Recherchen zu GetMyAds auf das unbedarfte Volk der Affiliate loszulassen um damit nun im ganze bei allen ein newtonsche Axiom auszulösen. Ca. 200 Millionen Gründe und zahlreiche Ermittlungsbehörden werden über das schranzige Schicksal und deren Helfer in den nächsten Wochen entscheiden.

Und merken Sie sich diese Url: <https://arthurvanburren.blogspot.de> (<https://arthurvanburren.blogspot.de>), denn dies ist die Anlaufstelle für alle Updates in stürmischen Zeiten, wo der Burrenblog nicht erreichbar ist.

Update vom 19.02.2017 / 20.52 Uhr

Actio - Reactio, also known as Newton's third axiom, could be applied here to the Burrenblog and its actions. I generate a targeted static action in the form of targeted publications with set goals, with the result of the expected counter-reaction. And so in the return envelope it can then be inferred who caused the new DDOS attacks that are currently ongoing. Those who pretend to the inexperienced that they have an IQ lying on average are basically nothing more than blenders who hunt for their own existence with cautious stupidity. Stupidity does not follow fixed rules, but creates itself, which is composed of circumstances - actions and a lack of knowledge. Those are blinded by vengeance

But it shows us something else, namely that the operator and polluter tick just like the unsuspecting affiliate himself, as they can be manipulated using simple mechanisms. You beat them with your own weapons, the weapons with which they lure unsuspecting affiliates into their traps.

Update from 02/16/2017 / 3:23 p.m.

The DDOS attacks do not really show the effect that you want to achieve with them. Now Mr Pütz is being attacked again by attempting to access suspected data with 28 ransomware attacks within the last three days. A little tip, all my data is on a secure server / cloud in Australia. Mr Pütz, however, has and cannot have any data, at least not my data on all research. And if you have your own, it will certainly not be left on your computer, but will also be saved externally in a cloud. So, dear attackers, make an effort, use your scarce intelligence resources if you can, add some logical mathematics here and then add 1 + 1. If you can do this without difficulty, then you should see a little light. There is enough space for the little light because of your lack of intelligence.

During the DDOS attacks, I use the time freed up for further intensive research and will soon publish it on other blogs.

Update from 02/14/2017 / 8:19 p.m.

Yesterday's DDOS attack was probably used for a test, because DDOS attacks are being carried out again against the Burrenblog. Well, it is natural when, due to a low level of education, stupidity outweighs the intellect. Carrying out DDOS attacks against the Burrenblog would be like taking away

an eighth axle. The main GMA report has been published countless times through various blogs. In other words, if you can't read anything on Burrenblog, you read my article on other blogs. So wasted effort. But it's not my money.

Update from 02/13/2017 / 8:03 p.m.

Again, DDOS attacks are carried out against Burrenblog, which shows me that GMA's nerves are bare. Nevertheless, of course, updates continue to be visible after the attacks.

The main clubs in England have now been identified. These are Simon Stepsys and Ari Maccabi. Due to anonymous mailings to both people in text and picture form, I will take a special look at a "conspiratorial" meeting that took place in England in February 2016 and also identify the remaining participants.

To what extent this meeting served as a basis for committing a collective fraud, or to meet a common criminal offense, I will still examine.

Update from 02/12/2017 / 5:18 p.m.

I will report soon on another cross-connection research, which incidentally has been disconnected from this research due to its explosive nature, with reference to Waldemar Reimer and Jannik Buchner. Direct cross-connections to the ViziNova program also contain new starting points, so a colleague of mine started researching ViziNova again.

More information here - >> <http://cafe4eck.blogspot.de/2014/04/vizinova-mlm-aus-mexico-ist-ein-ponzi.html> (<http://cafe4eck.blogspot.de/2014/04/vizinova-mlm-aus-mexico-ist-ein-ponzi.html>)

Update from 02/11/2017 / 3:36 p.m.

the thin skin of many a GMA club is slowly coming to light. As soon as they have found their name on the list published in my article, they assume that they are meant by it and now think they have to blow the next horn with threatening gestures.

Dear GMA-Keuler, as you could certainly see, the list is not personalized, so that basically every person who also bears one of these names could be meant. Any threat basically fizzles out and is only passed on to the authorities for further preservation of evidence. So you don't need to go to Google or WordPress or even your lawyer to enforce something that you don't even know if it actually behaves like that. You'd better save this money and continue investing it diligently in tokens. I was told that the GMA works great.

Update from 02/09/2017 / 04:38 a.m.

As the reader - DieB Bewertung - has already announced in a comment on this post, GetMyAds (GMA) in Turkey was officially classified as a Ponzi by the Turkish Ministry of Customs and Trade on January 13, 2017. This should have far-reaching consequences, especially for the Turkish affiliate. The Indian authorities in Delhi, who have had my information for 27 days, are also currently checking whether GMA is also classified as a Ponzi in India.

<https://www.gtb.gov.tr/duyurular/getmyads-ve-mglobally-denetim-sureci-hakkinda-basin-duyurusu> (<https://www.gtb.gov.tr/duyurular/getmyads-ve-mglobally-denetim-sureci-hakkinda-basin-duyurusu>)

Update from 02/08/2017 / 3:09 p.m.

When looking through cross-connections, which I initially rated as not particularly interesting, I received more information about this cross-connection in the form of an old post at Cafe4eck on the subject of Lexx Europe and Martin Schranz. This is a very scam-active club based in the USA. I have started new research on the person Ronnie Montano (Ron Montano), which I will follow intensively.

The fact that an alleged project by Martin Schranz has now been officially reported to various Berlin investigative and administrative authorities against Adsino (see comment on Getmyads (GMA) The Final Destination) shows that 2017 will be a year of upheaval in this scene. Even if this criminal complaint writes about it, which is not named, many blogs report about such machinations, only represent a disturbance in this scene, but no consistent actions are taken, I have to correct this a bit. Burrenblog has actively approached American, Swiss, German, Thai, Indian and Chinese investigative authorities and provided the information available. In particular, Nicholas J.

The difference to such blogs and the Burrenblog is that the Burrenblog does not go on an Internet advertising tour with such active actions. If the authors of the Adsino criminal complaint blog had taken the trouble and read the first paragraph of my article, i.e. the one before the actual article began, you would have noticed to which authorities the information was forwarded and you would have saved yourself such a statement can.

Update from 02/05/2017 / 3:36 p.m.

Many inquiries are directed to the investors / advertising list in this post with the question of why the term "investor" is behind the name. I am happy to try to answer the question.

Aus den Earnings (Verdienste – Einnahmen) werden 50 % einbehalten und wandern in einen Topf (Pool). Dieses einbehalten nennt man auch Zwangsthesaurierung. Damit soll die Eigenkapitaldecke des Betreibers gestärkt werden. Von einem Umsatzpool kann kaum die Rede sein, da hier der Zwang im Vordergrund steht. Eine Freiwilligkeit wurde indes einen Umsatzpool begründen aber auch die Eigenkapitaldecke einem erhöhten Risiko aussetzen.

Nun sind also 50 % Ihres Gewinns/Verdienstes einbehalten worden, was eine stille Teilhaberschaft begründet und somit auch eine Übergang einer Haftung an jeden einzelnen Affiliate stattgefunden hat. Wie der Betreiber von GMA dieses benennt ist hier unerheblich, sondern die Handlung als solches relevant. Wenn Sie sich also nun 50 % auszahlen lassen, sollten die 50 % Einnahmen, die einbehalten wurden, auf einer Rechnung nicht als Einnahme erscheinen, sondern hier wird eine gesonderte Rechnung fällig. 50 % ausgezahlte Einnahmen und 50 % einbehaltene Einnahmen unterliegen jedoch verschiedenen Steuerstrukturen.

Würden die 50 % Einnahmen die in den Pool fließen nun tatsächlich als fließendes Finanzmittel im Unternehmen stehen bleiben, so hätten Sie die Möglichkeit nach neuen gesetzlichen Regelungen einen ermäßigten Steuersatz in Anspruch nehmen zu können. Doch Sie haben die Möglichkeit aus diesem Pool neue Tokens zu kaufen die dann den gleichen Bedingungen wieder unterliegen. Also eine Zwangsthesaurierung mit Spiraleffekt. So unterliegen diese Einnahmen der Steuer in voller Höhe und ein ermäßigter Steuersatz kann nicht in Anspruch genommen werden.

Sind die Pooleinnahmen auf der Rechnung als reine Einnahme verzeichnet, sprich entsteht der Eindruck auf der Rechnung, das Sie 100 % der Einnahmen erhalten haben, dann haben Sie und das Unternehmen ein kleines Problem. Sind nur 50 % der Einnahmen auf der Rechnung verzeichnet, dann haben Sie und das Unternehmen ein kleines Problem. Egal also wie die Rechnungshandlung ausgeführt wurde, in beiden Fällen haben Sie ein Problem.

Im Grunde erwirtschaften Sie also Kapitalerträge und gewähren einem Unternehmen ein Zwangsdarlehen, dem Sie freiwillig mit Anerkennung der „AGB“ zugestimmt haben. Und mit jedem neuen gekauften Token wiederholen sich diese Vorgänge, so das man hier von einer Vermittlertätigkeit im Kreditsektor sprechen kann, sprich Sie vergeben fortlaufen Darlehen. Und schon haben wir ein erneutes Problem, das zu Recht vom OLG Hamburg in seinem Beschluss, was darf ein Rev-Share-Teilnehmer und welchen Regularien unterliegt dieser, erkannt hat. Wenn also man nun fleißig seine Downline füllt, dann verstärken sich diese Indizien. Denn durch die Downline vermitteln sie weitere Darlehen, die durch jeden einzelnen in der Downline dem Unternehmen bereitgestellt werden.

Und wenn ein Unternehmen behauptet das sind Eier und keine Gurken und unterliegen somit nach Aussage des Unternehmens keiner Anmeldepflicht und Regulierung, dann ist dies schlichtweg falsch. Denn nicht eine selbst getroffene Begriffsbestimmung des Betreibers steht vordergründig dem Recht gegenüber, sondern die Handlung als solches die ein Recht auslöst.

Naivität gegenüber der Realität und dem Verstehen von Handlungen im Kontext mit dem Recht, kann also fatale rechtliche und finanzielle Folgen mit sich ziehen. Weitere Umstände belasten das Vertragsverhältnis zwischen dem Betreiber und dem Sponsor/Affiliate was ich als zweiten Teil dieses Beitrages später veröffentlichen werde.

Geht der Betreiber zum Beispiel durch innere oder/und äußere Einflüsse pleite, dann stellt sich die Frage, ob ein Affiliate in meiner Downline mit als Sponsor des Affiliate in Haftung nehmen kann, wenn keine ordentliche Beratung stattgefunden hat. Und hier kommt wieder das Urteil des OLG Hamburg zum tragen ->> <https://www.netcoo.com/direct-selling/landgericht-hamburg-revshare-berater-fallen-unter-das-vermoegensanlagegesetz-auswirkungen-auch-auf-bitclub-getmyads-questra-etc-moeglich/> (<https://www.netcoo.com/direct-selling/landgericht-hamburg-revshare-berater-fallen-unter-das-vermoegensanlagegesetz-auswirkungen-auch-auf-bitclub-getmyads-questra-etc-moeglich/>)

Nun werden viele wieder sagen; gilt für mich nicht, denn ich habe nur Werbung gekauft. Haben Sie wirklich nur Werbung gekauft? Denken Sie bei ihren Überlegungen bitte daran , wie man etwas nennt ist zweitrangig, sondern erstrangig ist, welches Recht man mit seinen Handlungen auslöst. Am Ende können Sie auch alles als Pina Colada bezeichnen um ihr Gewissen einen Streich zu spielen. Die Realität indes können Sie damit nicht beeinflussen oder rückgängig machen.

Update vom 01.02.2017 / 23.04 Uhr

Martin Schranz der edle Spender aus Arbon in der Schweiz hat es sich in der Vergangenheit nicht nehmen lassen, verschiedenen GMA Jüngern die Provision zu spenden. Halt, sorry nein, die zahlreichen Bilder von Überweisungen die man mir vor einer Stunde anonym übermittelt hat, sind ja gar keine Spendenbescheinigungen, sondern klare Überweisungen vom Konto Martin Schranz an die jeweiligen Provisionsempfänger. Also das Lob ich mir, ein Support der mit soviel Eifer am Werk ist, gehört definitiv in die Hall Of Fame der.....

Stellt sich nun die Frage, wie ein Support, von dem er behauptet auch nur der Support zu sein und sonst nichts mit GMA am Hut hat, auf die wahnsinnige Idee kommt und Überweisungen tätigt.

Schließe ich jetzt hier die Indizienkette bezüglich der Inhaber von GetMyAds? Nö.....

Beispiel:

Konto: 312195xxx

Document: 993205

Account holder: Tissen E.

Booking day: 10.06.2016

Value date: 06/10/2016

Recipient / debtor: GSD Master AG

Booking text: transfer credit

Sales details / intended **use:** CMPMT

Amount: 439.00 euros

(I cannot publish the picture yet because copyrights have not been clarified, so only the data has been transferred for the time being)

Update from 02/01/2017 / 4.38 p.m.

This is how the next website is identified that was registered via disguised channels and belongs to the GMA disciple Sensi alias Sensation or vice versa. This is known from the X-Invest forum. In this regard, I can again close open cross-connections and pass on further information. But probably a new contribution to this.

Update from 01/31/2017 / 04:04 a.m.

The dark power strikes back mercilessly. Yes, anyone who discloses such facts must expect strong headwinds. But I'm really disappointed. Old tinned foods from the Hurrenblog are now artificially set to music, yes artificially, after all, you don't want to be recognized by your own language and now put them online on YouTube, in the hope that they will show their effect. But what effect should these videos show if the smear campaign on Hurrenblog somehow came to nothing? If, from the beginning and also now, one had simply provided pure facts, then one or the other believer would still be found. But as it was, certain protagonists of the rip-off guild just gave me a little bit of information.

The nicest thing is the new setting of a new section. Paul Pütz so actually me, or the other way around, has been the focus of the public prosecutor's office since the end of January. Hmm, Paul Pütz could date such information better, namely precisely. And what was the prosecutor supposed to investigate? So the facts I submitted to Arthur van Burren and then confirm them? But apparently the protagonists of the dark power have probably not read the first words of this article and therefore did not understand it, which reads: "abridged version". What do I mean by that?

Hello Arthur,

what do you think of systems like: <https://happy-donation.net/>

Does that sound like a pyramid scheme ?

greetings

No clear structure recognizable. If I install such a platform and use 50 fake profiles. Then I invested 1,000,000 euros, but these 50 fake profiles can then make a big splash. I also cannot see a control body that sorts out fake profiles. Who checks what and who gets my money. I can specify a lot in the registration, I don't see a control structure here. Oh, there's a lot going on here.

Hello Mr. van Burren, I would like to ask you for a personal assessment, but I cannot find a suitable thread. Here and at Questra (meanwhile also Lions Trading Club) this project research would not necessarily fit into it. Is there still a suitable way to post it here in the Burrenblog?

Regards

Nora

reply

Short message what it is, then I'll open a new category and thread.

reply

4. Nora writes:

September 3, 2017 at 3:28 PM

It's about the topic of fintech and crowd investing. From what point in time do these companies located there also need BaFin's approval? I have a special case to examine for this.

reply

o arthurvanburren writes:

September 3, 2017 at 3:59 PM

Hm, that's hard to say, because it depends on the individual situation. I recommend the following information here; https://www.bafin.de/DE/Aufsicht/FinTech/fintech_node.html

Otherwise also applies here; The operation of payment services, financial services, banking or insurance business without permission is a criminal offense.

reply

5. Nora writes:

September 3, 2017 at 8:04 PM

I was asked for an assessment from my circle of friends. In this case it is the international crowdfinvest project SkyWay. For investors in the DA-CH region, it's SkyWay Capital. Is it tolerated by BaFin and active affiliate partners are allowed to recommend it out of conviction. Not as financial advice (venture capital) but as pure recommendation marketing and leave the decision to everyone for themselves? If you will allow me, I would post the whole request on this in a suitable thread. Or just this short version. Thanks in advance for your help.

reply

September 3, 2017 at 8:20 PM

Hello Nora, don't be angry with me, but a complete forest of alarm lights is lit up right now. I just have to fight my way through, but the first look at the information available to me says everything and nothing. I'll get in touch as soon as I can give a first clear assessment.

reply

6. Nora writes:

September 4, 2017 at 7:38 PM

By the way, there is an interesting statement from BaFin on the subject of crowd investing and fintech, which are mostly start-up companies.

Read here:

<https://www.derbrutkasten.com/a/geld->

Follow-geld-investoren-wie-peter-thiel-blicken-auf-fintechs-in-europa/ The German financial supervisory authority BaFin thinks it's good that FinTechs are fresh Bringing wind to the banking industry. "You have to let small businesses come first. If you are confronted with the force of traditional financial regulation from the very first second, then not much is happening," says BaFin President Felix Hufeld. From a certain size onwards, however, the newcomers would also have to adhere to the strict banking rules.

The German loan portals Auxmoney and Kreditech located there also do not have any BaFin licenses.

And the Bergfürst company - it mediates stakes in real estate investments - has slipped through the bureaucratic hurdles of BaFin for 1 year and finally gave up.

Even without a BaFin license, this company is still present and BaFin seems to tolerate it.

reply

o arthurvanburren writes:

September 5, 2017 at 3:33 AM

At SkyWay, however, the situation is somewhat different, even if it is to be suggested that it is not the case that the investment leads to a share purchase and the old rules now apply here. In addition, the company is subject to the information obligation. However, this is in no way complied with. The question of liability has not been clarified either, as it is not clear who the operator really is. SkyWay Capital collects the money, which then flows as an investment in a share purchase at SkyWay.

reply

7. Nora writes:

September 5, 2017 at 7:30 PM

There are 3 collection points here that collect the money for it.

1. At the top the main company

RSW System (holding company)

<http://rsw-systems%5Bdot%5Dcom/?Lang=de>

2. SkyWay Invest Group

3. SkyWay Capital

As I understand it, the pre-market shares are transferred to RSW's share register after they have been paid.

The investors receive a certificate for this.

This can also be sent in paper form on request.

By the way, I rummaged through the news at SkyWay Capital and found something that should be of interest to you.

https://skyway%5Bdot%5Dcapital/de/News/die_begegnung_von_dalai_lama_und_anatoliy_yunitski/

The project itself makes ecological and economic sense, because such an effective transport system can be used in areas where other transport systems cannot be implemented for topographical reasons.

But back to the starting point of regulation and BaFin.

There is this admonishing, legal sentence.

"Ignorance does not protect one from punishment".

The whole thing here is apparently a bit more complicated than I initially assumed.

On the one hand, people and nature need innovative solutions, on the other hand, everything should also be legally approved. (maybe it is currently tolerated?)

Should we leave it with the findings and wish all those involved continued success, or should we continue drilling?

reply

o arthurvanburren writes:

September 6, 2017 at 3:20 AM

The main website says nothing about RSW, but it should be. And for the shares to be issued, they have to be registered on the exchange, which I have not yet been able to see. The prospectus requirement also applies in Germany and in most European countries. In this regard, I made a request to the Bafin, FMA and Finma and asked for information. The customer is demonstrably not advised at the moment, but small video films take over. The Dai La Lama is normal, after all, he has always been interested in technology and so a few pictures are good for advertising. I see it more as a blind work to distract from the actual system. All of the corporate entanglements, three of which appear in the Panama Papers, should also cause concern. The fact that the company in the UK was in strike off in 2014/2015 is quite alarming, because the impression suddenly arises that everything is fine again. Perhaps it is also because I have prejudices against it at Russian companies or companies in which Russians are involved, because the past has shown that everything that comes from this direction doesn't mean anything good and always ends in Choas (see Questra). But I will dig a little deeper and tap into special databases. I also have good connections to the SEC and once sent them the information I already had with a request for information. that I have prejudices against it in Russian companies or in companies in which Russians are involved, because the past has shown that everything that comes from this direction does not mean anything good and always ends in Choas (see Questra). 8. Nora writes:

September 6, 2017 at 9:02 PM

Here I was able to find something about the ISIN or WKN number.

That would mean that there is a registration of the pre-market shares (IPO).

<http://rsw-systems.com/news/isin-euroasian-rail-skyway-systems?lang=en>

In addition, a recording of the last German-language info webinar:

https://www.youtube.com/watch?v=ImQfQ3fH_Po

Then a very detailed PDF presentation about the project in English .

https://www.youtube.com/watch?v=ImQfQ3fH_Po

The 1st international conference in Germany at the end of September:

https://skyway.com/de/News/die_zukunft_hat_bereits_begonnen/

The rolling stock (the first prototypes) are about to be accepted and certified:

https://skyway.com/de/News/das_bild_vom_yuni_bus_vor_der_abnahme_prfung/

The current audit.

https://skyway.com/de/News/Finanz_wirtschaftsprfung_bei_der_sao_strunnije_technologiji_fr_das_jahr_2016/

A tax audit:

https://skyway.com/de/News/die_projektierungs_organisation_von_skyway_hat_die_steuerprfung_erverbindlich_ablossen/

An award, a kind of "Oscar" of the transport industry for innovative transport technologies:

https://skyway.com/de/News/eine_feierliche_verleihung_des_gtlichen_sonnenwagens/

My conclusion so far:

There is light and shadow. On the one hand, a great traffic technology is being launched here, while on the other hand there are still uncertainties about the crowdfund financing type, i.e. whether it is largely free of approval (DA-CH / EU) or not.

reply

o arthurvanburren writes:

September 7, 2017 at 3:28 AM

Hmm, let me just think about it, why does SkyWay get the number on the Cayman Islands (tax haven - tax money hiding islands)? I will pass it on to BaFin, FMA and FinMa with a request for legal information.

Meanwhile, SkyWay or Euroasian Rail is subject to Skyway Systems Holding Ltd. the European prospectus requirement. This is not the case. The interdependence between all these companies and the affiliate program is also not yet completely clear to me, here too I have asked for information on the extent to which a license to accept funds outside of the actual structure is required.

reply

9. Nora writes:

September 9, 2017 at 12:40 AM

Until the answers have arrived, maybe the legal situation of the affiliates who have actively joined this partner program.

Unfortunately, there are also shady and unscrupulous contemporaries who promote illegal Ponzi schemes

or HYIP programs. Qvestra, Evo Binary, GMA etc....

The remuneration runs through a multi-level MLM system, which is not unusual, but also entails a financial loss of resources.

Variant 1:

An affiliate advertises online with the advertising materials made available, e.g. landing pages etc., which are provided with a referral link assigned to them. If a prospect registers via this link, he will be automatically booked to the affiliate in his structure. If he now invests a sum of X, he receives a commission for his marketing activities. Most of the time, there is a contact discussion by phone, Skype and information is found before the investment . In a few cases there will be no personal contact.

Question:

The affiliate makes the interested party aware of an investment opportunity. In this case a start-up company (crowdfunding) as a crowdfund project. The decision to make an investment here is left to the interested party, who ultimately concludes a contract with SkyWay Capital. This is preceded by a risk warning from the company that it is venture capital and therefore there is also a price reduction (discount). This decreases from time to time as the commercial launch approaches.

Would the affiliate be completely free of liability if the project failed?
As a "tipster", does this also not require a license to sell financial services?

Variant 2:

This only affects a small number of affiliates who make a public presentation in mostly rented rooms (hotels, restaurants, etc.) to which they have previously invited. Here, personal contact is a little more pronounced than it is over the Internet. If this "information event" also leads to new registrations: What about permits here? Is such an event legally unproblematic or is it a borderline situation?

Such an internationally oriented crowd investing project, with a PhD engineer as the company founder, who saw it as the only possibility or way out to start it with small investors at the beginning, cannot afford any legal missteps and the resulting consequences. Then the vision behind it would be a tragedy.

So I have now looked at the website including the documents. It will be problematic, at least in the German-speaking area, as all documents were written in either English or Russian. only the liability notices are written in a partially ambiguous German. Even if the shares are issued in BVI, the company in Germany is subject to the prospectus requirement, as it addresses German interested parties directly.

The company SkyWay is then also subject to consultant liability, because it can be seen that the affiliates are supposedly only tipsters. In the German-speaking area, however, advice must be given in German according to the law. It is not clear to me now to what extent a consultation protocol has to be prepared. I would have to dig deeper into the subject at least, which explains the legal status on the part of BaFin. The stated risk information must be in German and should be clearly visible on the main page, but unfortunately it is not. In my opinion, the treaties are also not interpreted internationally and sometimes contain pitfalls. These are also to be written in German. In principle, the language barrier must also be lifted for every document,

As far as the events are concerned, it must be clearly demarcated whether it is purely an information event or whether "contracts" are also concluded (structure - upline -> downline). But here I would simply visit the responsible trade office personally and ask for advice (they should also pay for your tax money) - it costs nothing and in the end you are on the safe side.

I am not yet conclusive about the purpose of the partner program and its clear demarcation from SkyWay. The company issues shares, through the partner program I can also acquire shares in other forms, so that pisses me off at first. Also the one in charge seems to be no stranger in certain circles and apparently he has already been involved in the Ponzi MMM. The actual project is interesting, but I would have put the partner program on a different legal basis under state supervision, at least for the European market. This is possible and the test procedure takes about 6 months. Cost about 100 K euros including all fees. But as I see it, I just see a black shadow.

These unnecessary numerous company entanglements are also a thorn in my side. As already mentioned, three of these companies appear in the Panama Papers. But the whole thing about BVI and Cayman is not more transparent and I would have probably preferred Lichtenstein or Switzerland here.

The sale of the shares is not permitted in Russia. Say goodbye affiliate program - also USA not allowed - goodbye affiliate program.

Conclusion: There are too many questions open to me in advance that should be clarified first. Dancing at several weddings at the same time is not healthy either. What happens if you want to eat the cake at once you can see at Questra / AGAM and others who are already stumbling.

I also somehow lack the control organs in this company, like the executive producer with film. And as with any partner program, sponsor liability applies. There is no difference whether the program is legal or illegal. That is also the sticking point that does not come to my mind, why should I participate in an affiliate program when I can buy the shares that way? Well because of the earnings, but where does the money come from here again? From investor money? Well then we would be back to a World Cup Ponzi - pyramid scheme. So what is the external source of income?

Thank you very much for the numerous researches that have led to these previous assessments. My impression is that the good Dr. Anatoly Eduardovich Yunitskiy as inventor, company founder and chief designer was not given optimal advice here.

Because if "questionable" people with a rather dubious past are actually involved, his life's work (he is often quoted) could suffer some wounds. And that would be very, very unfortunate for what I think was a brilliant project.

As an example for example this partner program again. Why is commission paid in so many levels here? Wouldn't it be enough to leave it at 1-2 levels (expense allowance), as is customary in classic affiliate marketing. And designed in a legally secure manner, as with Auxmoney, Kreditech or Bergfürst, which also have a partner program for tipsters in Germany? But too much investment capital simply flows into this bloated MLM construct instead of operating it on a maximum of 1-2 levels, as already mentioned, and thus having more capital available for the actual construction project.

Auf x-invest gibt es länger schon einen Thread über SkyWay. „The Sailor“ hatte ihn eröffnet und berichtet aktuell über das Geschehen. Er scheint hier mit Herzblut dabei zu sein. Teilweise interessant, worüber er so alles berichtet. EXPO2017, Indien-Weißrussland (Business Forum), die Financial Express..... <https://x-invest%5Bdot%5Dnet/forum/thread-crowd-invest-sky-way-capital-eine-einmalige-chance-die-zukunft-mit-zu-gestalten?page=93#diskussion>

Hallo Nora

Skyway interessiert mich eigentlich nur so am Rande. Das Partnerprogramm und dessen Betreiber steht bei mir im Mittelpunkt. Und einen Zeitungsartikel in Indien in ein Blatt zu schieben damit darüber berichtet wird ist ja eins der einfachen Dinge. Bakchisch heißt in Indien die Devise. Aber ok ich bin grad an dem Partnerprogrammbetreiber/Vorsitz dran.

Hallo Herr Van Burren, nun hat sich Brasilien und Bolivien für das bestehende Eisenbahnsystem entschieden und investiert dafür 12 Milliarden Dollar. Da waren die Vorverträge für Bolivien und die Kontakte nach Brasilien wohl nichts wert. Oder aber es hätte den Verantwortlichen in diesen beiden Ländern einfach zu lange gedauert, bis SkyWay hier eine funktionierende Lösung praktiziert hätte.

Diese Verhandlungen zwischen BRD und andere sind ja über zwei Jahre gelaufen. Glaubt Skyway es müsse nur mal in den Urwald hineinrufen und jeder steht Gewehr bei Fuss um diese „tolle Technik“ für einen Appel und ein Ei zu bekommen.

Ich würde sagen, Skyway ist bei einer glatten Lüge ertappt worden und das wird rechtliche Konsequenzen haben.

Vielen Dank für diesen Beitrag, der ja Gold wert ist 😊

Ja nachdem mehrere Artikel abgemahnt wurden und nun wieder bereits gelöscht wurden kann man davon ausgehen das hier gewaltig ein Fake-News am Werk ist. Zumal sollte man sich den Beitrag genau durchlesen und die darin angeblich enthaltene schreiberling Arbeit. Auch dieser Beitrag wurde gesichert und an die Wettbewerbszentrale nach Frankfurt gesendet.

@ Michael

Jetzt wollte ich mich über den nächsten Betrug des Martin Schranz informieren, aber dort heißt es nur: „Der gewählte Artikel ist nicht verfügbar.“ Warum läuft der immer noch frei herum? Sind die Staatsanwälte weltweit immer noch im Winterschlaf?

Everything is in progress. But worldwide the mills grind slowly and all the information material must first be sorted chronologically. This takes a while.
